ILYA HVOSTENKO

Frontend & Full-Stack Engineer

Ashdod, Israel • +972 52 481 7204
ilyajavadev@gmail.com • GitHub • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Frontend-focused Engineer with deep expertise in **TypeScript, React 19, Next.js 16 (App Router)**, and complex real-time, data-dense interfaces. Brings a unique, high-reliability background rooted in **IDF Naval Operational Command (Squadron 916 War Room / חמ"ל פלגה 916)**, enterprise **Terminal Operating Systems (Citrix TOS) at Ashdod Port**, and automotive electronic diagnostics at **Scania**. Combines disciplined systematic root-cause troubleshooting and state-management rigor with 2 years of Java Full-Stack training. Proven track record architecting deployed FinTech analytics terminals, interactive 3D WebGL configurators, and commercial multi-lingual platforms with native Hebrew (RTL) support.

TECHNICAL SKILLS

Frontend Core:	TypeScript, JavaScript (ES6+), React 19, Next.js 16 (App Router), React Native, Tailwind CSS v4, shadcn/ui, HTML5/CSS3
State & Data:	Zustand, Redux Toolkit, TanStack Query (React Query), Context API, WebSockets, Client/Server Caching, SWR
3D & Motion:	Three.js, React Three Fiber (R3F), Drei, GSAP (ScrollTrigger), Framer Motion, PBR Shaders, Canvas 3D, WebGL Optimization
Backend & Cloud:	Node.js, Express, Java (Spring Boot), MongoDB, PostgreSQL, RESTful APIs, Inngest Workflows, Git/GitHub, Vite, Vercel
Specialized & UX:	Hebrew (RTL) Localization & Bi-directional Layouts, Web Accessibility (WCAG 2.1 / a11y), Real-Time Telemetry & Dashboards

FEATURED SOFTWARE ENGINEERING PROJECTS & COMMERCIAL WORK

PulseQuant — Full-Stack AI Market Intelligence Terminal — 2025

Next.js 16 • TypeScript • MongoDB • Gemini AI • Inngest Workflows • Finnhub API • Tailwind CSS • **Live Demo ↗ • GitHub ↗**

- Architected an institutional-grade stock intelligence platform featuring paper-trading portfolio with real-time mark-to-market P&L and asset allocation.
- Orchestrated resilient asynchronous background jobs using Inngest to generate automated daily financial digests powered by Gemini AI.
- Built dynamic watchlists with price alerts, live NYSE/NASDAQ market session countdown timers, and keyboard-driven ⌘K command navigation.

NexusFi Pro — Institutional Crypto Intelligence & Telemetry Terminal — 2025

React 19 • Next.js 16 • TypeScript • TradingView Lightweight Charts • CoinGecko API • shadcn/ui • **Live Demo ↗ • GitHub ↗**

- Integrated high-performance TradingView Lightweight Charts for interactive candlestick OHLC telemetry and technical indicators.
- Engineered multi-currency asset heatmaps and quantitative simulation tools: Dollar-Cost Averaging (DCA) and dynamic market-cap calculators.
- Designed optimized client-side state caching with zero-flicker re-renders across high-frequency cryptocurrency streaming price feeds.

MacBook Pro 3D / Atelier 3D — Interactive WebGL & 3D Configurator — 2025 – 2026

React 19 • Three.js • React Three Fiber (R3F) • Drei • GSAP ScrollTrigger • WebGL Optimization • Tailwind CSS • **Live Demo ↗ • GitHub ↗**

- Developed high-fidelity 3D product showcase with 360° spring-physics interaction, seamless non-suspending live video textures, and smooth chassis finish animations.
- Optimized 3D rendering pipeline: unified Draco-compressed GLB geometry, cut draw calls by 50%, implemented viewport-aware WebGL rendering, and reduced texture load weight by 87% (2.4MB to 27KB WebP).

Lev Group — Commercial Corporate Real Estate Platform (Production) — 2024 – Present

React • TypeScript • Tailwind CSS • i18n Localization (RTL/LTR) • Web Accessibility (WCAG / a11y) • Responsive UI • **Live Site ↗ • GitHub ↗**

- Delivered a production multi-lingual commercial platform for an Israeli property management firm featuring native Hebrew (RTL) alongside English, French, and Russian.
- Engineered bi-directional layout synchronization, full WCAG 2.1 accessibility compliance, mobile-optimized UX, and interactive lead routing.

PROFESSIONAL & MISSION-CRITICAL OPERATIONS EXPERIENCE

Scania Israel — Diagnostics & Electrical Systems Specialist — 2025 – Present

- Perform computerized system diagnostics, ECU software parameter calibrations, and CAN-bus network troubleshooting on commercial vehicle electronics using Scania SDP3.
- Apply rigorous engineering root-cause analysis to trace intermittent electrical, sensor, and multiplexing communication faults under critical operational deadlines.

Ashdod Port — TOS Operations Division — Terminal Operating Systems Specialist — 2024 – 2025

- Operated mission-critical Citrix Terminal Operating Systems (TOS) in Israel's premier maritime port, coordinating high-throughput container routing and ship discharge plans.
- Managed real-time synchronized dispatch across crane operators, engineering units, and logistics under intense 24/7 round-the-clock schedules.

IDF Navy — Squadron 916 (פלגה 916) — Naval War Room & Operations Coordinator (קמב"ציה / חמ"ל) — 2018 – 2021

- Served in the 24/7 Naval Operations Command Center securing Israel's southern maritime theater; managed real-time tactical displays, encrypted communications (COMSEC), and fast-response fleet coordination.
- Formulated shore-side operational schedules, crew rotations, and battle-readiness routines; executed emergency alert protocols under extreme operational pressure.

EDUCATION, MILITARY & LANGUAGES

Tel-Ran Educational Center — Full-Stack Java Development
2-Year Intensive Program (2020 – 2022) • OOP, Data Structures, Algorithms, Spring Boot, REST APIs, React & TypeScript

Full Military Service (שירות צבאי מלא) — IDF Israeli Navy
Squadron 916 (חיל הים, פלגה 916) • 2021 – 2018 • Full Israeli Matriculation (תעודת בגרות מלאה)

Languages
Hebrew: Native / Fluent
English: Fluent / Professional proficiency
Russian: Native • **Ukrainian:** Native
